AXIS Pendant Dome

Weatherproof your Axis Network Cameras

The AXIS Pendant Dome protects the AXIS 213 PTZ, the AXIS 214 PTZ and the AXIS 231D/232D Network Dome Cameras in outdoor environments as well as indoor conditions that may be humid, cold or dusty.

The housing provides IP66-class protection from dust and water ingress. With fan-assisted heating, the housing enables the camera to operate in temperatures down to -4˚ F (-20˚ C).

The dome ships with an optically clear polycarbonate lower dome that can be replaced with a tinted version. The housing provides an internal protective passage for cables and is easy to install on ceilings and walls.

- Indoor and outdoor installation
- Operating temperature

    AXIS 213 PTZ Network Camera: -4˚ F to 100˚ F

    AXIS 214 PTZ Network Camera: -4˚ F to 100˚ F

    AXIS 231D/232D Network Dome Cameras: -4˚ F to 122˚ F

- IP66-class protection from dust and water
- Fan-assisted heater
- Variety of mounting brackets available

AXIS Pendant Dome
