

## **“Baby Penguin” – an advanced SCPA for the DTV/CELL Band**

Frequency Range	460-470 MHz
Average Output Power	20W
Modulation	CDMA
Dimensions	24x17x2.5 cm.

The DTV/CELL Band has received a great deal of attention in the last while. The recently developed “Baby Penguin”, custom designed for this frequency, has already generated considerable interest – as well as a significant number of sales orders.

“Baby Penguin” utilizes state of the art components which provide excellent linearity, low distortion, high gain and wide dynamic range. Superior electronic circuitry enables “Baby Penguin” to deliver exceptional performance, as well as an outstanding reliability and longevity. Very competitively priced, “Baby Penguin” is readily available, its delivery can be as short as 4-6 weeks A.R.O.
